REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

In an apparatus including a bracket having a flange with an upstanding hub and a bottle having a flat back with an embossment with a central recess for receiving the hub and flange, the inclusion of the hub being threaded and the central recess being grooved to engage the hub was not found or fairly suggested by the prior art.

Fraterrigo, the most closely related prior art, includes a bracket having a flange with an upstanding hub and a bottle having a flat back with an embossment having a central recess for receiving the hub and flange, however Fraterrigo explicitly teaches away from threading as vertical orientation of the container with the flange is insured by alignment of the two vertical sides of the plate between lateral appendices of the container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth Bomberg whose telephone number is 571-272-4922. The examiner can normally be reached on Monday, Tuesday, Thursday and alternative Fridays.
